Who We Are:

At IMGS, Data intelligence and Information is at the core of what we do. We provide solutions to automate data flows, visualise information and power data insights for a wide variety of customers including Local Authorities, Government Agencies, Utilities and Communication Organisations.

How We Can Help:

Our solutions are built on our partner's technology platforms and serve the citizens of Ireland every day, from managing water and electric networks to publishing key e-Government information through Government Portals. Through our market leading partners, we provide organisations with end to end solutions that drive operational and capital efficiencies.

We Put Customers First:

The key to our success is that we stay focused on our customer and their needs, and deliver solutions to meet those needs. In many cases, spending time in consultation with one customer identifies a solution which is easily adaptable to other devices with similar needs.

Our Partners:

IMGS are the Sole Irish Distributor for Hexagon's S & I (Security & Infrastructure) division, a Hexagon Geospatial Platinum Partner and a Gold Partner for both Safe Software and Talend.

IMGS

Powering Data Insights

IMGS partners with Hexagon Geospatial to provide organisations with powerful solutions that help make sense of the dynamically changing and challenging world. Through flexible, innovative and collaborative products, organisations have the tools to transform multi-source content into actionable information.

IMGS partner with Hexagon S & I to utilise their solutions to integrate sensors, software, domain knowledge and customer workflows into intelligent information ecosystems that deliver actionable information.

Safe Software is a world leader in Spatial data Extraction, Transformation and Load (ETL) technology. FME is used by thousands of organisations Worldwide to automate the process of manipulating spatial data.

IMGS are a Safe Software Gold Partner and reseller of their FME Products.

As specialists in data migration, quality, and integrations solutions for the past 15 years, IMGS have seen first-hand the increasing demand for businesses to leverage their data assets and allow them to make critical business decisions. IMGS are very proud to be partners with Talend, a global leader in Cloud and Big Data integration software.

Powering Data Insights

IMGS, a solutions partner in Ireland for Snowflake Computing, deliver a cost-effective low maintenance, modern data warehouse as a service through Snowflake.

Snowflake's mission is to enable every organisation to be data-driven with instant elasticity, secure data sharing and per-second pricing, across multiple clouds. Snowflake combines the power of data warehousing, the flexibility of big data platforms and the elasticity of the cloud at a fraction of the cost of traditional solutions.

IMGS are pleased to announce a new integration with Sisense, a leading platform that empowers analytics builders to simplify complex data and deliver business analytics and insights. This integration will help IMGS serve the island of Ireland more effectively, by pairing IMGS's expertise in data management with Sisense's ability to deliver actionable insights to every user across a business.

Sisense lets builders collaborate on a single platform, delivered in a hybrid, cloud-native environment with the industry's lowest cost of ownership, to create true democratisation of data and analytics. Sisense has thousands of clients across the globe, including industry leaders like Tinder, Flexport, Philips, Nasdaq and the Salvation Army. Learn more at www.sisense.com.
